Universal Class is the place to continue your education online and fulfill all your lifelong learning goals.

[ini file wikipedia](#)

The INI file format is an informal standard for configuration files for some platforms or software. INI files are simple text files with a basic structure composed of sections, properties, and values.. In MS-DOS and 16-bit Windows platforms up through Windows ME, the INI file served as the primary mechanism to configure operating system and installed applications features, such as device ...
